

DANG! PRESENTS:

Intro to Snakemake

Facilitated by:

Chris Gates & Travis Saari

Bioinformatics Core, University of Michigan

Monday, February 24, 2020 | 4-5pm | Room 2901 THSL

Join us as we learn about snakemake – a workflow management system used to create reproducible and scalable data analyses. We will cover the basics with examples and explore a few key features that can enhance your workflows.
